

Academic Integrity

Every program requires a signed cover sheet:

Program Project 2 ~~at~~ Convex hull

Programmer Chayton Hamric

Academic Integrity Pledge

- All source code and documentation used in my program is either my original work, or was derived, by me, from the source code published in the textbook for this course or presented in class. Any source code in this project that is derived from code published elsewhere is documented as such so the original author receives due credit.
- I have not used source code obtained from another student, or any other unauthorized source, either modified or unmodified. I have not helped another student write their program by providing a printed or electronic copy of my solution.
- I have not discussed coding details about this project with anyone other than my instructor. I understand that I may discuss the concepts of this program with other students, and that another student may help me debug my program. However, the responsibility to write each program belongs solely to the program's author.
- I have violated neither the spirit nor letter of these restrictions.

Signature of programmer
